Meeting Minutes for February 14, 2018

Welcome and Introductions

1. Call to Order and Comments by the Vice Chair

Vice Chair Jackie Majors opened the meeting of the Policy Roundtable for Child Care and Development (Roundtable) at approximately 10:05 a.m. with self-introductions.

2. Approval of January 10, 2018 Minutes

Upon a motion by Dr. Dawn Kurtz and second by Dr. Richard Cohen, the minutes for January 10, 2018 were approved. Dr. Katie Fallin Kenyon abstained.

Strategic Priority Work

3. Follow-up on Old Business

   a. Strategic Planning Progress - Overview of Workgroup Screener

Vice Chair Majors reminded the Roundtable of the ongoing strategic planning process, and noted that a final draft of the Board Communication Document will be shared with the Roundtable as a part of the strategic planning.

4. Workgroup Reports

   a. Subsidized Child Care System – CalWORKs Stage 1 Child Care (Stage 1 Workgroup)

Vice Chair Majors announced the upcoming meeting with the leadership of the Stage 1 Workgroup and the Child Care Planning Committee’s Access/Inclusion Workgroup. The intent of this meeting is to explore alignment of the work of the two bodies around access issues and to avoid duplication of efforts.

   b. Los Angeles County’s Prevention Plan – Improving Access to Early Care and Education Programs (Prevention Workgroup)

Dr. Jacquelyn McCroskey noted that the initial meeting took place among the members of the Prevention Workgroup. While additional research is underway to prioritize the work, First 5 LA has offered to support facilitation of this workgroup.

5. Priority Work Updates

   a. Board of Supervisor Designees - Proposed Board Communication Document

Dr. Karla Pleitéz Howell provided an overview of the proposed changes to the process of drafting the document. She also presented the proposed template, and the first official
document draft. Several members provided feedback and suggested adjustments to the document. Members also had discussions about several areas of improvement such as the conciseness of the content, providing relevant timelines of projects, clarifying what is being asked from the Board as necessary, and involving the Legislative Affairs Office and the Board’s Executive Office in the vetting process as needed. Members also agreed that this document should not substitute nor preclude any of the existing or necessary communications between the Board designees and their respective offices.

b. Roundtable Members

i. Local Funding Priorities for Child Care and Development Services, FY 2017-18
Ms. Michele Sartell presented the LPC\(^1\) Local Funding Priorities for Fiscal Year (FY) 2017-18, which are due annually to the California Department of Education/Early Education and Support Division (CDE/EESD) by May 30\(^{th}\). The priorities are used by the CDE/EESD to make allocation decisions as new funding for subsidized early care and education services is made available in the state budget. The priorities also are referenced when local programs seek approval to expand their service area or need to relocate their funding to new sites. Referring to the PowerPoint presentation, Ms. Sartell explained the methodology for assigning priorities to zip codes on a scale of one to three and discussed the plan this year to add remaining zip codes with a gap in supply as a “3*” as is allowed by the CDE/EESD. Adding the additional zip codes will allow for some community-based analysis beyond individual zip codes. The priorities are scheduled for approval by the Planning Committee on March 7\(^{th}\) and then will be submitted to the County Superintendent of Schools for her signature before going to the Board of Supervisors for their approval, likely in early May.

Public Policy

a. Governor’s Budget Proposal for FY 2018-19
Ms. Sartell highlighted Early Care and Education (ECE) items included in the Governor’s budget proposal for FY 2018-19. The Governor’s proposals mostly are limited to the multi-year plan specified in the 2016-17 budget agreement to increase the number of full-day preschool spaces administered by Local Education Agencies (LEAs) and raise reimbursement rates. In addition, the budget includes a cost-of-living adjustment (COLA) and increases funding for CalWORKs Stages 2 and 3 Child Care to reflect anticipated caseloads.

New to this budget cycle is the Governor’s budget proposal to establish the Inclusive Education Expansion Program to increase access to subsidized inclusive early care and education programs for children birth to five years old in high need communities based on local needs assessments. One-time competitive grants and priority funding would be awarded to LEAs representing a consortium of partners. Ms. Sartell added that the budget proposes funding for a voluntary home visitation program targeted to first-time, young parents in the CalWORKs program.

b. State Legislative Updates – Second Session of 2017-18
Ms. Sartell provided the matrix of bills introduced yet not enacted upon during the first session of the two year session for 2017-18, as well as bills introduced during the Second Session to date. Bills from the first session that did not pass out of the house of origin by January 31\(^{st}\) are

\(^1\) The Los Angeles County Child Care Planning Committee serves as our County’s Local Child Care and Development Planning Council (LPC).
considered dead; the last day for legislators to introduce new bills is February 16th. Ms. Sartell announced that the Joint Committee on Legislation is scheduled to meet on Thursday, February 15th, during which they will continue to review and prioritize bills, including any that may warrant elevating to the Planning Committee and Roundtable with proposals for pursuits of position by the Board of Supervisors.

c. Board Motion – Pregnant and Incarcerated Women and Girls
Ms. Sartell announced the new Board Motion regarding Pregnant and Incarcerated Women and Girls, which among many other things, examines the possible child care needs of the women residing in County facilities. The motion was introduced by Supervisors Hilda Solis and Janice Hahn, and approved on February 13, 2018.

d. Continued discussion regarding Portrait of Los Angeles County
Vice Chair Majors opened a discussion about the information presented at the previous Roundtable meeting from the Portrait of Los Angeles County, and referenced opportunities to utilize the available data to better direct services to the communities with greatest need. She reminded members that the consultant to Portrait of Los Angeles County, Ms. Cheryl Wold, will be invited to the Roundtable’s future meetings to further discuss opportunities for mapping the data and using other data complements. Members exchanged ideas about how to operationalize and track the recommendations, and how to use the information to overcome boundaries in the early care and education work.

Wrap Up

6. Announcements and Public Comments

- Dr. Jacquelyn McCroskey announced the upcoming California Assembly Blue Ribbon Commission on Early Childhood Education’s meeting scheduled for March 2, 2018 to occur in Palm Desert.
- Dr. Fallin Keyon announced that she has decided leave her position at First 5 LA, and that her alternate will be attending future Roundtable meetings until her position is filled.
- Dr. Pleitéz Howell announced that conversations are underway to explore establishing a centralized early care and education office at the state level.

Re: Updates on the State of Los Angeles County Young Children
Date: February 16, 2018

**Background:** The Roundtable builds and strengthens the early care and education system for children under 5 by providing recommendations to the Board on policy, systems, and infrastructure improvement. The Roundtable was established by the Board on March 21, 2001. Members represent the collective expertise of community leaders in early childhood, education, business, economics, research and County departments representing child welfare, mental health, probation, public health, and parks and recreation.

The purpose of this update is to provide the Board of Supervisors with information on current issues impacting the County’s youngest children. Further, these updates will elevate Roundtable recommendations for Board consideration when appropriate.

**State of Early Care and Education in Los Angeles County.** A child’s first 5 years are a crucial window for cognitive growth and social emotional development. During this critical time, children need consistent, quality and affordable early care and education. Yet Angeleno parents often struggle in finding care. For more information, see: http://ceo.lacounty.gov/ccp/pdf/ECE%20Needs%20Assessment_Executive%20Brief%2003-30-2017.pdf

**Legislation to watch.** There are current opportunities at the state level to increase access for early care and education. Specifically, **AB 1754** would create the Pre-K for All Act of 2018 and require the state to provide all 4-year old children of low-income families with preschool programs.

**Systems.** The Roundtable has organized two workgroups to provide the Board with recommendations around subsidized child care and the County’s prevention plan.

- CalWORKs Stage 1 Workgroup. The goals of this workgroup are to identify key obstacles to access subsidized child care, to determine the access issue with the highest priority, and to frame policy recommendations that would increase access. For more information, contact [Jackie Majors of the Child Care Alliance of Los Angeles, jmajors@crystalstairs.org](mailto:jmajors@crystalstairs.org).
• Los Angeles County’s Prevention Plan Prevention Workgroup. This workgroup is focused on improving access to early care and education programs. The workgroup has discussed strategies around family engagement, the implementation of the new statewide Emergency Child Care Bridge Fund for Children in Foster Care Program and mapping of resources for early care and education. For more information, contact Jacquelyn McCroskey from the Commission for Children and Families, mccroske@usc.edu.

Accomplishments to date. The Roundtable hosted our annual retreat in August 2017. Since then the Roundtable has delved into strategic planning conversations to develop a comprehensive plan around aligning our work with other 0-5 organizations in the County. First 5 LA will support this effort by funding a consultant who will help guide the development of the strategic plan.

This document is a short summary of work by the Roundtable. Please let us know what additional information would be helpful to you and if you would be interested in joining us for a meeting or presenting on an important issue being considered by the Board. BILL ANALYSIS

AB 2292 (Aguiar-Curry) – Child Care Reimbursement Rates and Start Up Costs for Programs Serving Infants and Toddlers: Would amend the Child Care and Development Services Act, which establishes a system of subsidized child care and development services, by 1) increasing the adjustment factor applied to the reimbursement rate for infants and toddlers served in a center or family child care home; 2) establish the Classroom Planning and Implementation Grant Program to reflect the additional start-up costs of opening new general child care and development centers and the California State Preschool Program classrooms or converting existing classrooms to serve different age groups of children; and 3) codify and expand the Family Child Care Recruitment and Training Fund with $6 million over five years to recruit a new generation of family child care providers in California.¹

Introduced and Amended Dates: Introduced: February 13, 2018 Amended: Pending Finalization and Posting

Office for the Advancement of Early Care and Education Analyst: Michele P. Sartell (213) 974-5187

Status: Assembly Committee on Human Services Hearing: April 10, 2018

Sponsors: California Child Development Administrators Association, Child Care Resource Center, First 5 CA

Support: Child Care Alliance of Los Angeles, ZERO TO THREE, Go Kid Inc.

Opposition: None listed

Summary: This bill would amend existing law as follows:

- Increases the adjustment factor applied to the Standard Reimbursement Rate (SRR) from 1.7 to 2.44 for centers providing subsidized early care and education services to infants from birth to 18 months of age.

- Increases the adjustment factor applied to the SRR from 1.4 to 1.83 for centers providing subsidized early care and education services to toddlers from 18 to 36 months of age.

- Increases the adjustment factor applied to the SRR from 1.4 to 1.7 for family child care homes participating in CDE-funded Family Child Care Home Education Networks and providing subsidized early care and education services to infants and toddlers from birth to 36 months of age.

¹ Pending amendments to the bill will reflect the proposed codification and expansion of the Family Child Care Recruitment and Training Fund as alluded to in item 3.
The bill would add to Education Code as follows:

- Establishes the Classroom Planning and Implementation Grant Program to be administered by the Superintendent of Public Instruction.

- Allows applicants seeking a contract with the California Department of Education (CDE) or existing contracting agencies to apply for a grant under the program for up to 25 percent of the contractor’s annual contract amount or proposed contract amount for child care and development facility renovation, classroom furnishings and equipment, instructional materials, staff recruitment, staff training and professional development costs, and other start-up costs.

- The SPI may award grants upon an appropriation by the Legislature.

- In addition, would codify and expand the Family Child Care Recruitment and Training Fund dedicating $6 million over five years to targeted outreach, recruitment, training, supplies and resources for startup costs to recruit a new generation of family child care providers in California.

**Analysis:**

The Child Care and Development Services Act (“the Act”) establishes a system of subsidized child care and development services for children from birth through 12 years old of low-income families. It requires the Superintendent of Public Instruction to implement a plan for assigning reimbursement rates per unit of average daily enrollment to be paid by the state to agencies contracting with the CDE to provide the subsidized services to income eligible families. Existing law provides adjustment factors to be applied to reimbursement rates for certain populations of children inclusive of infants, toddlers, children with exceptional needs, dual language learners, children at risk of abuse and neglect, and children with severe handicaps.

The Act also establishes the Child Care Facilities Revolving Fund, which provides funding for loans for the renovation, repair or improvement of an existing building to make it suitable for licensure for child care and development services. In addition, it allows for the purchase of new relocatable child care and development facilities for lease to local education agencies and contracting agencies that provide subsidized early care and education services to income eligible families.

This bill, if passed, would accomplish three objectives: raising the adjustment factors for serving infants and toddlers to more closely match the cost of providing quality services; creating a grant program for classroom infrastructure supports and start-up costs needed to increase access for infants and toddlers; and codifying and expanding the recruitment and training fund to increase the access for infants and toddlers in family child care homes.

California currently administers two distinct reimbursement structures for subsidizing child care and development services for low-income families, the Standard Reimbursement Rate (SRR) for California Department of Education (CDE)-contracted center-based programs and the Regional Market Rate (RMR) for the voucher-based Alternative Payment (AP) and CalWORKs child care programs. CDE-contracted agencies are reimbursed at a daily rate of $77.25 for infants and $63.62 for toddlers (adjusted for age from the base rate of $45.44). CDE-contracted programs are required meet Title 5 standards that exceed basic health and safety standards under Title 22 for licensed programs.
Licensed centers serving children subsidized with an AP or CalWORKs child care voucher are reimbursed at the 75th percentile of the 2016 RMR survey, with the intent that eligible families may have access to 75 percent of providers in their community. The maximum daily RMR for a licensed center providing full-day services to an infant or toddler is $96.53. Licensed non-CDE contracted centers are required to meet Title 22 standards for basic health and safety.

The following table illustrates the current reimbursement rates with the adjustment factors compared to the proposed increases.

The standard reimbursement rate (SRR) is $45.44 per child day of enrollment (cde) or $11,360 per annum based on 250 days of operation (Education Code Section 8265).

Los Angeles County is experiencing a severe shortage of subsidized services for infants and toddlers in licensed centers and family child care homes, which was exacerbated during the recession when programs could no longer afford to provide the services and either converted classrooms to serve preschool age children or closed their doors. According to the needs assessment completed in 2017 by the Child Care Planning Committee, only 15 percent of the need for subsidized infant and toddler care can be met with the current supply. The needs assessment suggests the higher cost of care compared to serving preschool age children as a key issue impacting the supply, some of which is attributed to required smaller teacher to child ratios, appropriate physical environments that are designed for younger children that also meet space requirements for accommodating cribs and napping areas, compensation of early educators based on education and experience, and professional development opportunities for early educators that focus on promoting early brain development in our youngest learners within the context of a nurturing environment and in partnership with parents and other primary caregivers. Compounding the challenge of access are losses in family child care spaces since 2011, a critical resource for families with infants and toddlers offering more flexible hours in a home environment.

In addition to the adjustment factors, there is a severe shortage of new classroom spaces and facilities for center-based programs. Furthermore, the cost of modifying classrooms and/or facilities is often prohibitive.

This bill, if passed, will move reimbursement rates closer to the cost of providing high quality early learning environments that improve access to infants and toddlers and promote their optimal growth and development while supporting low-income working families. The adjustment factors reflect the recommendations of the American Institutes for Research as necessary to

---

2 The proposed adjustment factors listed in this analysis are taken from the revised fact sheet that reflects proposed amendments to the bill and are therefore higher than in the bill originally introduced on February 13, 2018.

meet California’s need for infant and toddler services. Furthermore, the bill will provide
opportunities to open new classrooms and centers for children from birth to five years old build
through the Classroom Planning and Implementation Grant Program pending an allocation of
funds by the Legislature. The grant program will make it possible for operators to purchase
age-appropriate facilities and provide infrastructure supports inclusive of appropriate equipment
and materials and professional development for their early educators.

**Recommended Position for Board Approval:**
The Policy Roundtable for Child Care and Development (Roundtable), with input from the Child
Care Planning Committee, recommends a position of “support” for AB 2292 that, if passed, will
increase the rate of reimbursement paid to CDE-contracted early care and education centers
and family child care homes serving infants and toddlers. In addition, it will create a grant
program to fund facility renovation and development and infrastructure support intended to
increase the supply of infant and toddler spaces in center-based programs and provide funding
for the recruitment and training of additional family child care providers. This position is
consistent with County policies as follows:

1.3 **Child Care and Development**

3. Support efforts to develop and sustain a well-educated and highly skilled professional
workforce prepared to serve the culturally and linguistically diverse child and family
populations of Los Angeles County.

5. Support efforts to adequately fund high quality early care and education services for all
children from low and moderate income families.

8. Support efforts to ensure that vulnerable children and their families have access to
consistent, uninterrupted subsidized early care and education services.

9. Support efforts to expand the supply of appropriate early care and education services
through facility development in communities with a significant shortage of these services.

Re: Support for a State Investment in Early Childhood Nutrition

Dear Senator Mitchell, Assemblymember Ting, Senator Pan and Assemblymember Arambula,

We, the undersigned, write in strong support of a state investment in early childhood nutrition. For decades, California supported access to nutrition for our youngest learners by supplementing the federal reimbursement for meals served through the Child and Adult Care Food Program (CACFP). But in 2012, following the recession, the state eliminated this funding for most of child care. Following the cut, thousands of low-income children lost access to healthy meals served through the CACFP.

We therefore respectfully submit this request for $16.7 million in the 2018-19 State Budget in order to restore access to food for low-income children. These funds would reimburse child care settings $0.23 in state funding for breakfast and lunch served to eligible children through the CACFP, in the same way that state funds supplement federal funding for K-12 nutrition.

We commend the legislature for investing in low-income children through school meals, but respectfully request the Committees and the Administration extend similar funding to support children during a critical stage of their development. We know that children who start life with nutritious diets fare better, both physically and academically, and are more likely to thrive in school and later in life. After a decade of budget crises and dire fiscal conditions for the field of early childhood, California has finally turned the page. Policymakers have the opportunity to rebuild our state’s early childhood system to support the future of California’s children. An investment of just $0.23 per meal can help thousands of children gain access to healthy meals in child care.

The undersigned look forward to working with both Budget Committees and the Administration to make healthy meals more justly and equitably accessible for our state’s youngest learners.
Sincerely,

California Food Policy Advocates

** Levels of interest are assigned by the Joint Committee on Legislation based on consistency with Policy Platform accepted by the Child Care Planning Committee and Policy Roundtable for Child Care and consistent with County Legislative Policy for the current year. Levels of interest do not indicate a pursuit of position. Joint Committee will continue to monitor all listed bills as proceed through legislative process. Levels of interest may change based on future amendments.
### DEFINITIONS:

1. **Committee on Rules**: Bills are assigned to a Committee for hearing from here.
2. **Consent Calendar**: A set of non-controversial bills, grouped together and voted out of a committee or on the floor as a package.
3. **First Reading**: Each bill introduced must be read three times before final passage. The first reading of a bill occurs when it is introduced.
4. **Held in Committee**: Status of a bill that fails to receive sufficient affirmative votes to pass out of committee.
5. **Held under Submission**: Action taken by a committee when a bill is heard and there is an indication that the author and the committee members want to work on or discuss the bill further, but there is no motion for the bill to progress out of committee.
6. **Inactive File**: The portion of the Daily File containing legislation that is ready for floor consideration, but, for a variety of reasons, is dead or dormant. An author may move a bill to the inactive file, and move it off the inactive file at a later date. During the final weeks of the legislative session, measures may be moved there by the leadership as a method of encouraging authors to take up their bills promptly.
7. **On File**: A bill on the second or third reading file of the Assembly or Senate Daily File.
8. **Second Reading**: Each bill introduced must be read twice before final passage. Second reading occurs after a bill has been reported to the floor from committee.
9. **Spot Bill**: A bill that proposes non-substantive amendments to a code section in a particular subject; introduced to assure that a bill will be available, subsequent to the deadline to introduce bills, for revision by amendments that are germane to the subject of the bill.
10. **Third Reading**: Each bill introduced must be read three times before final passage. Third reading occurs when the measure is about to be taken up on the floor of either house for final passage.
11. **Third Reading File**: That portion of the Daily File listing the bills that is ready to be taken up for final passage.
12. **Urgency Measure**: A bill affecting the public peace, health, or safety, containing an urgency clause, and requiring a two-thirds vote for passage. An urgency bill becomes effective immediately upon enactment.
13. **Urgency Clause**: Section of bill stating that bill will take effect immediately upon enactment. A vote on the urgency clause, requiring a two-thirds vote in each house, must precede a vote on bill.
14. **Enrollment**: Bill has passed both Houses, House of origin has concurred with amendments (as needed), and bill is now on its way to the Governor’s desk.
