

LPC Local Funding Priorities Backup Data

The Child Care Planning Committee (Planning Committee) is delighted to provide the early care and education field with LPC¹ Local Funding Priorities for infants and toddlers and preschool age children prepared for Fiscal Year (FY) 2018-19. LPCs are mandated to send updated priorities to the California Department of Education/Early Learning and Care Division (CDE/ELCD) each year. CDE/ELCD uses the priorities to make decisions on funding allocations for subsidized early care and education services as new monies become available in the state budget.

This handout provides the background data that is used to assign priorities to zip codes based on a scale of 1, 2 or 3 using the methodology as required by the CDE/ELCD. It includes zip codes that do not meet the methodology for a Priority 3 assignment, yet show a gap between the number of children of income eligible families eligible for subsidized services and the availability of those services, indicated as a “3*”. Questions about the data may be referred to the Los Angeles County Office for the Advancement of Early Care and Education by sending an e-mail to msartell@ph.lacounty.gov.

Notes

Methodology for Priority Setting:

Priority 1- Zip code qualifies when there are 50% or more children not served AND more than 1,500 children not served.

Priority 2 - Zip code qualifies when there are 50% or more children not served AND more than 750 children not served.

Priority 3 - Zip code qualifies when there are 50% or more children not served AND more than 500 children not served.

Priority 3 Option:

Zip codes assigned a priority 3* do not meet the threshold, yet have significant unmet need for subsidized services.

Listing these zip codes may be beneficial when determining community-level that exceed the boundaries of any one zip code.

Local Child Care and Development Planning Council Funding Priority Setting Process. June 2015. The Management Bulletin provides a revised standardized child care and development funding priority setting process for Local Child Care and Development Planning Councils (LPCs). LPCs are required to use the methodology developed based on county population; Los Angeles County uses the methodology for counties with populations of over 10 million residents. LPCs must submit their local funding priorities to the California Department of Education's (CDE) Early Education and Support Division (EESD) every year, on or before May 30. For more information, see <https://www.cde.ca.gov/sp/cd/ci/mb1504.asp>.
