Overview

Workforce Pathways LA is a comprehensive workforce development model that works in partnership with Quality Start Los Angeles (QSLA), the County-wide quality improvement consortium. The Workforce Pathways LA Stipend Program (Stipend Program) provides financial incentives (stipends) to early educators for achieving professional milestones like attending 21 hours of California Department of Education (CDE) professional development, completing college courses, obtaining their first Child Development Permit, or achieving a college degree. Stipends are available for LA County early educators who work in center-based care or family child care homes where most of the children are subsidized by the California Department of Education/Early Learning and Care Division (CDE/ELCD).

The instructions serve as your guide for completing your application to the *Stipend Program*. It is critically important that you **read the instructions** carefully and provide all information and documents as requested. Note that each program period is separate; therefore, you must submit all supporting documents requested for this program period. **Applications that have missing information and/or missing documents will be considered incomplete and will be disqualified.**

The instructions also provide you with information on the process leading up to awarding stipends, including the appeal process and a detailed timeline.

Applying to the *Stipend Program* is a two-part process:

- 1. Application:** Determines that you meet the employment eligibility criteria.
- 2. Verification:** Verifies that you have met your professional growth plan and continue to meet the employment criteria.

STEP 1: Determining Eligibility¹ (see note below)

To be eligible to apply for a stipend, you **must**:

1. **Create a Registry Profile:** Create or **update** your California Early Care and Education Workforce Registry ([CA ECE Workforce Registry](#)) profile. For questions regarding CA ECE Workforce Registry, please contact (323) 645-2631 or toll free (855) 645-0826. For instructions on how to register, go to "[Creating a User Account](#)" **AND**
2. **Work with Children Receiving Subsidy:** Work in child development center with contract from CDE/ELCD **OR** work in a licensed center in which the majority (51% or more) of the children receive a child care subsidy from a CDE/ELCD-contracted agency at the time you submit your application; **AND**
3. **Work Directly with Children:** Work directly teaching children as a teacher, teacher/director (those with dual roles), teacher aide/assistant, or substitute in the classroom on a consistent and continual basis at least 20 hours per week. If you are working in a California State Preschool Program, you must work directly teaching children at least 15 hours per week; **AND**
4. **On-Going Employment:** Maintain employment at an eligible child development center located in the County of Los Angeles from **August 1, 2021 through February 11, 2022.**

For Persons Working in a Family Child Care Home (Provider/Assistant):

- Work in a family child care home that participates in a California Department of Education/Early Learning and Care Division (CDE/ELCD)-contracted family Child Care Home Education Network (FCCHEN) certified by Network Program Coordinator/Administration, **OR**
- Work in a licensed family child care home in which the majority (51% or more) of the children receive a child care subsidy from a CDE/ELCD-contracted agency at the time you submit your application; **AND**
- Work directly teaching children on a consistent and continual basis at least 15 hours per week; **AND**
- Have been licensed and operating for one year **or** employed in a family child care home in the County of Los Angeles from **August 1, 2021 through February 11, 2022**

STEP 2: Setting a Professional Growth Goal

A professional growth plan is a document that an early educator creates, reviews often and updates as needed to guide your future professional growth. As a part of Workforce Pathways LA, applicants will be asked to select **one professional growth goal** (on the on-line application) you would like to achieve during the program period 2021-22. The professional growth goals for Workforce Pathways LA that participants can choose one (1) include:

1. Completing 21 hours of professional development
2. Completing college course (only unit bearing courses are applicable)
3. Obtaining an initial Child Development Permit
4. Achieving an associate or bachelor's degree

As part of the Workforce Pathways LA application, all applicants must complete and upload a Professional Growth Plan and **select one goal for the current program year 2021-22.**

¹ State law limits eligibility to the *Workforce Pathways LA - Stipend Program* to persons serving a majority of children receiving CDE/ELCD subsidies. Staff working in Head Start Programs are ineligible to apply unless the classroom in which they work is blended with a State Preschool program.

STEP 3: Meeting the Stipend Requirements

Each applicant must select **one professional growth pathway** to focus on during the current program year 2021-22. To earn a stipend, choose the appropriate professional growth pathway below and follow the criteria.

1. For Pathway Type Professional Development

- a. If the applicant's selected pathway is to attend professional development, participants must complete 21 hours of professional development funded by the CDE (i.e. West Ed training, Family Child Care at Its Best Training, etc.) or Care Courses within the program period (**complete after March 31, 2021 and before February 11, 2022**).
- b. Trainings conducted by your organization of employment are not accepted for stipend credit. Please refer to the "[Training Organizations on the registry](#)" to see a list of approved training sponsors.
- c. The professional development trainings should be related to the participant's day to day work with children.
- d. If the professional development is not recorded on your Education & Training Report, you then must upload the certificate to your CA ECE Workforce Registry profile, in "My Documents" with the number of hours of the training by **February 11, 2022**. To view your report, log in to the Registry and go to the left-hand tool bar "My Tools & Settings" and click on "My Education & Training Report" or ([click here for video](#)).

2. For Pathway Type College Credits

- a. If the applicant selected pathway is college coursework, then participants must complete at least three (3) semester units (4.5 quarter units) or a maximum of six (6) semester units (9 quarter units) of eligible coursework at a community college, college, or university; **AND**
- b. Complete the class(es) after **March 31, 2021 and before December 31, 2021**; **AND**
- c. Pass the class(es) with a grade of "C" or better; **AND**
- d. Upload transcript(s) or grade reports by **February 11, 2022**.

All coursework must be **unit-bearing** and fulfill the requirements for a degree in child development, this includes extension and continuing education courses. If you have any questions regarding coursework eligible for the Stipend Program, you are encouraged to contact Renatta Cooper by telephone at (213) 639-6464. Eligible coursework is limited to the following five categories:

- If you are not proficient in English, you may take English-as-a-Second Language (ESL) classes at a community college for stipend credit if directed to do so by your college. This option is intended for applicants needing to improve their English language skills in order to enroll in college classes toward earning a degree in child development.
- If you do not have a child development permit issued by the California Commission on Teacher Credentialing (CTC), you should take required child development classes, or the required general education courses. If you already have a permit, you may take classes needed to upgrade or renew your permit.
- If you do not have an Associate Degree (AA/AS), you should take child development, English, Math or general education classes; or prerequisites to classes that are transferable for a degree in child development at a four-year college. Check with an advisor at your college or university before enrolling in a class if you are not sure it is a prerequisite or transferable class.
- If you are taking classes at a community college with the goal of transferring to a California State University (CSU) or University of California (UC) school, your educational program should indicate the AA-T or AS-T degree, whichever the school offers. This degree will ensure that the classes you take are transferrable and will give you preferred enrollment at some colleges. You should check with an academic advisor at your college to make sure you are enrolled in the correct program and that your classes fit the requirements for your degree. Acceptable degrees for the Workforce Pathways LA - Stipend Program include: Early Childhood Education, Early Special Education, Child Psychology, Child Development and Human Development.

- If you are taking classes at a four-year university with the goal of obtaining a bachelor (BA/BS) degree, classes should be in General Education towards your degree or support a degree in child development or a related field
- If you have a BA/BS or higher, you should take college or university classes that are directly related to your work with children and families in a child development program. Sample topics include special needs children, diversity, dual language learners, parent relations, adult supervision, program evaluation, and advanced child development. Unit bearing extension or continuing education courses can be counted as eligible only for individuals who already hold a BA/BS or higher.

3. For Pathway Type First CA Child Development Permit Acquired

- a. If the applicant's selected pathway is to obtain an initial Child Development Permit, then it **MUST be Issued between March 31, 2021 - February 11, 2022**. For information on how to obtain a Child Development Permit, visit the "[California Commission on Teacher Credentialing](#)" (CTC), click on "Credential Information," then click on "Apply for a New Document," and follow the instructions for obtaining your permit. As an alternative, contact the child development department at your community college. Community colleges can often process permit applications more quickly than the CTC. In addition, the "[Child Development Training Consortium](#)" offers support to eligible persons applying for, renewing, or upgrading their permits.
- b. A stipend will **only** be awarded for a participant's **first** Child Development Permit. Renewals or upgrades for Child Development permits are not eligible.
- c. Participants will need to upload a copy of their permit by **February 11, 2022** to qualify for the stipend.

4. For Pathway Type Associates/Bachelor's Degree Attainment

- a. If the applicant's pathway is to achieve a degree, participants must complete the degree **after March 31, 2021 and before February 11, 2022**.
- b. Associate and bachelor degrees will be accepted for the graduation stipend only if the degree has been completed and the applicant has a copy of their transcript showing degree has been conferred. Participants will need to upload a copy of their transcript with degree conferral date by **February 11, 2022** to qualify for the stipend. Acceptable degrees for the Workforce Pathways LA - Stipend Program include: Early Childhood Education, Early Special Education, Child Psychology, Child Development and Human Development.
