

How to locate the Professional Growth Plan tab on the CA ECE Workforce Registry

After submitting your Workforce Pathways LA Application, all applicants **must** submit a “Professional Growth Plan” for fiscal year **2026-2027**. If you have a professional growth plan on file, please **update information to align with your current professional goals**. You can only have 4 Professional Growth Plans at any given time. You should limit the number of plans you have and build on them instead of starting over.

1. Click on the left menu, click on **Professional Growth Advising**, and then click on **Professional Growth Plan**

2. After you click on **Professional Growth Plan**, you will see the screen below
